Dear Sir,

Greetings.

Further to the discussion we had with you in person on 7th March'17, we hereby request you to write to SBI for getting funds to clean up the river manually or with the machine which we discussed about. We came to know through sources that SBI may support us for this initiative.

As we are advised by you to get some CSR from industries, we are trying in that perspective too, for your kind information pls.

Hope you understand to protect the water before the water gets dried because of the water hyacinth. Looking forward for a speedy action sir.

With Regards...

S. Baskaran
President
Puducherry Development Party
