Dear Sir,

Greetings from Puducherry Development Party.

As we discussed over phone now, we request you to support our village to save water in the Sankarabarani river by removing the Water Hyacinth (Aagaya Thaamarai) from the river.

As you know well this plant sucks entire oxygen from with water and makes the river dry soon. This river is the only water resource for the people living in Villianur and surrounded areas. Everyday thousands of litres of water gets evaporated because of this plant from this river, invisibly.

We had given petition to the Chief Engineer Mr.Swaminathan of Public Welfare Department (PWD) of Puducherry on 17th November 2016. As there is a need of fund, they seeks some support from a corporate through CSR.

I would like to bring this matter to your kind notice to support this village people and save water for the forthcoming summer days.

Pl. help us soon to save the remaining water.  
(PFA the copy of the petition given to PWD)

Thank you.

**With Regards...**

S. Baskaran  
President  
Puducherry Development Party
